

Trustees' minute  
October 14, 2021

Concern for Quaker Life (CQL) has asked each Meeting to review a study to purchase property. Trustees raise two concerns if this project proceeds as a project of the Quarter. Trustees request the following:

1. If there is any proposal or feasibility study undertaken regarding development of a new property, it needs to include a detailed report on how it would affect the Quarter's budget.
2. Any proposal should include a feasibility study on how to manage the project including staffing.
